

Where these wording changes put Verodus

Clean review of the remaining copy brief · 21 August 2026

Label after this pass: an unproven Instant/challenge simulated-evaluation firm with careful FAQ and Terms, one UAE FZ name, and a search title of Up to \$1M capital, 90% reward split. The first screen already says no deposits, no client funds, no brokerage. \$49 is Instant at 35% off. \$1M is combined account cap. Trustpilot already links. Bios already sit in modals. Not a scam site. Not a licensed broker. Not live capital. Not a known payer.

The remaining pass (only this)

Light phrase swaps plus one homepage title change. No hero rewrite. No extra line under the CTAs. No meta-description rewrite. No Instant pricing rewrite. No Trustpilot rewrite. No Why Verodus rewrite. No How it works rewrite. No FAQ rewrite except two phrases. Bios stay in the existing Read Bio modals as written.

In	Out
Homepage title / og:title / twitter:title: Verodus Up to \$1M capital, 90% reward split.	Hero H1, subhead, no deposits / no client funds / no brokerage pill, CTAs. No extra line under CTAs.
FAQ: drop discretionary. Terms: pay if rules + KYC; withhold for breaches.	Meta description (locked): Funded on day one from \$49. 1-Step from \$45. Lite from \$39. \$5k-\$200k. Keep 80%. No deposit.
One legal name: Verodus L.L.C.-FZ. Payments: Capital Inc. affiliate.	Instant pricing module. Instant \$200k is not sold; \$5k-\$200k is 2-Step.
Instant label, FAQ Instant line, dashboard: Instant / Qualified Performance, not Funded.	Trustpilot 4.5/5 (already links). Quotes. Why Verodus cards. Bio modal copy.
Stat strip: 3,000+ traders; 90% reward split. Keep \$1M (combined cap) and <24h.	How it works, calculator, bottom CTA. About opening / mission copy.
About: Leadership heading. Behavioral analysis -> risk control. Leave Read Bio modals.	Adding Simulated accounts under the hero CTAs. Rewriting founder bios.
Certificates: unique IDs or hide duplicates. Copy stays Real traders. Real certificates.	Privacy data-sale / anonymized-license clauses. Keep the Privacy bans. Discretionary in Privacy only, if it appears.
Blog body numbers to live rules, or unpublish. Meta of that page stays.	We sell trading data on marketing pages. Renaming the Privacy controller.

Product facts (stop treating these as leaks)

- \$49 in the meta description is Instant at the 35% discount, not a rogue price versus the Instant

table.

- \$5k-\$200k in the meta description is 2-Step account sizes. Instant does not offer \$200k.
- \$1M Max Capital is the combined cap across accounts a trader can hold, not a single Instant SKU. The new title uses that number on purpose.
- Trustpilot 4.5 / 5 already links to the Trustpilot site. Do not call it unclickable.
- Kim Chen and Alexander Vladimirovich already have photos and full bios in Read Bio modals. Keep that UI and that copy this pass.

Where it puts Verodus

Audience	Before this pass	After this pass
Google / Instant buyer	Title: Instant from \$49. Funded on Day One. Description: Funded on day one from \$49.	Title: Verodus Up to \$1M capital, 90% reward split. Description unchanged (\$49 Instant at 35% off; \$5k-\$200k = 2-Step).
First screen	Funding Traders Worldwide. No deposits, no client funds, no brokerage.	Same. No extra line under the CTAs.
Trader who reads FAQ / Terms	Rewards are discretionary. Two legal names. Instant labeled Funded.	Pays if you meet the rules and KYC. One company. Instant labeled Instant.
Experienced prop trader	Unproven Instant shop with sloppy contradictions.	Unproven Instant shop with fewer self-inflicted leaks. Still waits on payout proof.
Partner / bank / counsel	Simulated service; entity fog; discretionary bonuses.	Simulated service; one FZ entity + payment affiliate; rules-based bonuses.
Data buyer	Public Privacy forbids external commercialization of trading behavior.	Unchanged. Bans stay. No data-license amendment this pass.

Sector ladder: 1 clone scam 2 unproven Instant shop with sloppy copy 3 unproven Instant shop with careful copy 4 known payer with a public track record 5 licensed or live-capital firm. This pass moves Verodus from 2 toward 3. The new title sells combined cap and top split in search. It does not reach 4. Copy cannot buy 4. Verifiable payouts and independent talk can.

Scorecard

Dimension	Before	After
Search title	Instant from \$49. Funded on Day One.	Verodus Up to \$1M capital, 90% reward split
Search description	Funded on day one from \$49 ... \$5k-\$200k. Keep 80%.	Unchanged (correct: \$49 = 35% Instant; range = 2-Step)
Payout promise	Discretionary	Rules + KYC; clawback for breaches
Legal identity	LLC vs L.L.C.-FZ	One FZ name + Capital Inc. affiliate
Funded vs simulation	Hero already: no deposits, no client funds, no brokerage. Instant cards still say Funded.	Hero honesty stays. Instant cards say Instant.
Stat strip	Profit split + \$1M combined cap	Reward split; \$1M combined cap stays
Social proof	4.5 Trustpilot (linked), first-name quotes, duplicate certificates	Trustpilot stays linked; quotes stay; duplicates should go

About / bios	Smashed heading; behavioral analysis; bios already in modals with photos	Leadership; risk control; modal bios unchanged
Public payout proof	None independent	Unchanged

What gets better

- Discretionary was the worst leak. Is Verodus legitimate? currently tells a careful reader you might not pay even if they followed the rules. After the swap, the same answer says you pay when rules and identity checks are met.
- One legal name kills the two-company / shell-stack read. Same FZ firm, one public name.
- Search title now matches the stat strip: combined \$1M cap and 90% top split, instead of only Instant from \$49. Description still sells the 35% Instant fee and 2-Step sizes.
- Instant as the phase label, Simulated Instant account in FAQ, and Qualified Performance on the dashboard stop repeating Funded next to simulated on every card. Hero keeps no deposits, no client funds, no brokerage.
- Reward split on the first strip matches Global reach and the new title.
- If duplicate certificate amounts go, the payout strip stops looking generated.
- Leadership and risk control remove two amateur tells. Bios already have faces and titles in modals. Leave that copy this pass.

What still hurts

- The homepage Instant selector can still show \$200k even though Instant does not sell \$200k. Pricing module was skipped this pass. Meta \$5k-\$200k is 2-Step and is fine.
- Founder modals have photos and titles but no school names, prior employers, years, or LinkedIn. A stranger still cannot confirm the people from the copy alone. That is registry / LinkedIn / one filmed AMA, not a bio rewrite this pass.
- First-name testimonials stay. Duplicate certificates, if they remain, still cost trust.
- No Reddit, PropFirmMatch, or independent payout corpus. Wording does not create that. Until it exists the honest public label is unproven, not scam, not FTMO-grade.

Founder bios (as they already are)

Keep the existing Read Bio modals. Do not paste them onto About. Do not rewrite the paragraphs this pass.

- Kim Chen, Co-Founder and CEO. Photo. Finance graduate; digital-asset background; strategist and roadmap; infrastructure access. Closing quote on world-class resources.
- Alexander Vladimirovich, Co-Founder and COO. Photo. Honors finance graduate; FX and risk-managed trading; UX, infrastructure, processing, support. Closing quote on a reliable ecosystem.
- What is still missing for founder proof is off-site: same names on the FZ record, LinkedIn that opens with the same faces, one filmed AMA. That answers are these people real. It does not answer do they pay.

Privacy (bans stay; discretionary only)

Keep the current Privacy bans. Do not replace them with sale or license language. Do not rename Verodus LLC in Privacy. Do not change funded account services in Privacy.

- Keep: Verodus does not use trading behavior data to replicate, commercialize, or exploit user

trading strategies externally.

- Keep: Trader P&L, strategies, and behavior data are not shared externally.
- Keep: Verodus does not sell personal information for monetary compensation.
- The only Privacy edit this pass: if Privacy calls performance rewards discretionary, swap that sentence to the same rules-based payout line as Terms. Live Privacy (21 February 2026) does not currently use that word.

Clean verdict

Do the edits. They close discretionary, two names, Funded as a phase label, and the smashed About heading, and they put combined \$1M and 90% in the search title. After they ship, Verodus is a careful Instant shop, not a new kind of firm. Google sees \$1M / 90%. The description still sells Instant from \$49 at 35% off. The first screen already says no deposits, no client funds, no brokerage. Trustpilot already links. Bios already have faces. Unchanged for anyone waiting on third-party payout proof.

Scope: remaining items in docs/verodus-website-wording-changes.md as of 21 August 2026 only. Facts from Verodus on \$49 (35% Instant), \$5k-\$200k (2-Step), \$1M (combined cap), Trustpilot link, and founder modals. Not an audit and not legal advice.
