

Add-on leftover: BE, margins, and every legal combination

Challenge fees locked. Add-ons: news/weekend 12%, Swing 20%, weekly 80% at 8%, on-demand 80% 12%/15% Instant, 90% 12%/15% Instant, 90% On Demand 20%/32% Instant. VERO35 takes 35% off list + stickers. After ads = 52% of sticker minus extra E[X].

1. Challenge BE and leftover (no add-ons)

BE is year-1 E[X] on Instant and first-payout $E[X] / (1 - P(\text{pay}))$ on evals. Margin = (rec sale – BE) / rec sale. Leftover is after 10% error, \$1, wage share, and 20% marketing — the opex stack, not BE alone.

Green = leftover ≥ –\$1. Challenge rec prints on every SKU.

2. Single add-on leftover at \$100k

Addon leftover does not include the challenge leftover. Extra E[X] is vs default 80% biweekly. Instant 90% On Demand extra is ~41% of year-1 BE (~\$116).

Instant 90% On Demand at 32% is thin (~\$4). That is the year-1 floor. Do not copy Blue Guardian Instant 15% or FundedNext +5% for 90%+anytime.

3. Instant \$100k — every legal cart

Weekly cannot mix with on-demand or 90%. News+weekend bills as Swing (20%), not 12+12. On-demand+90% bills as 90% On Demand (32%), not 15+15. Combined leftover = challenge leftover (~\$13) + addon leftover.
