

News trading included — rec prices and remaining add-ons

Monte Carlo rerun with news allowed on every evaluation phase and every funded account. News is not sold. The ±2-minute window / News Addon is off. Weekend holding, Weekly, On Demand, and 90% stay paid add-ons. Swing (news+weekend) is dropped — news is already in the base, so the holding SKU is Weekend at 12%.

1. What changed in the engine

Restricted book: a per-day rule-violation draw is a hard fail (news window plus HFT / arb / copy). News-on: 65% of those draws are treated as the news window and are skipped; the other 35% still fail. About 12% of active days are high-impact; on those days session vol ×1.40, shock probability ×2.20, and winning RRR ×1.15. Instant, 1-Step, Lite, and Pro all use the same news-on switch. Same seed 42, same 7/22/26/28/17 mix, 1,200 paths per profile.

2. Blended funnel — restricted vs news included

Plan	P(pay) off	P(pay) on	Year-1 off	Year-1 on	E[X] \$100k off	E[X] \$100k on	Δ E[X]
Instant	21.9%	22.0%	7.1%	7.1%	\$861	\$848	\$-12
1-Step	8.7%	9.4%	2.5%	2.8%	\$105	\$124	\$20
2-Step Lite	10.1%	11.1%	3.1%	3.6%	\$119	\$138	\$19
2-Step Pro	11.6%	12.6%	4.0%	3.6%	\$125	\$142	\$17

E[X] \$100k is first-payout mean over all buyers. Instant rec prices use year-1 (first × P_yr1 / P_pay). Green = move under 3%. Yellow = larger move.

3. Challenge rec — locked VERO35 vs news-on opex floor

Locked rec leftover still prints on every SKU after baking news into the base. Challenge fees do not change.

Plan	Size	BE off	BE on	Δ BE	Opex on	Locked	Rec now	Left off	Left on	Fee?

Green = locked fee kept. Yellow = sale bumped. List is still round(sale / 0.65). Instant BE is year-1; evals are first-payout including the fee-refund circularity.

4. Rec sale card after news-included

Plan	\$5k	\$10k	\$25k	\$50k	\$100k	\$200k
Instant	\$49	\$69	\$139	\$239	\$439	—
1-Step	\$36	\$60	\$120	\$193	\$335	\$654
2-Step Lite	\$42	\$55	\$94	\$149	\$269	\$499
2-Step Pro	\$45	\$59	\$95	\$159	\$289	\$577

5. Add-on rec — news removed

News is included in the challenge fee, so the 12% News SKU is gone and Swing at 20% is gone. Weekend holding stays 12% (Friday 22:00 flatten still on unless paid). Payout add-ons keep the locked percents: Weekly 8%, On Demand 80% 12%/15% Instant, 90% 12%/15% Instant, 90% On Demand 20%/32% Instant. Stickers are still round(list × %). Extra E[X] for news is now inside challenge BE, not an add-on cost.

Add-on	Evals %	Instant %	Was	Now
News trading	12%	12%	paid SKU	included — drop
Weekend holding	12%	12%	paid SKU	unchanged
Swing (news+weekend)	20%	20%	bundle	drop (news included)
Weekly 80%	8%	8%	paid SKU	unchanged
On Demand 80%	12%	15%	paid SKU	unchanged
90% split	12%	15%	paid SKU	unchanged
90% On Demand	20%	32%	bundle	unchanged

6. Remaining add-on leftover at \$100k (news-on BE)

Plan	Add-on	% list	Sticker	Extra E[X]	After ads	Prints?
Instant	Weekend holding	12%	\$81	\$22	\$20	yes
Instant	Weekly 80%	8%	\$54	\$22	\$6	yes
Instant	On Demand 80%	15%	\$101	\$33	\$20	yes
Instant	90% split	15%	\$101	\$34	\$18	yes
Instant	90% On Demand	32%	\$216	\$112	\$1	yes
1-Step	Weekend holding	12%	\$62	\$5	\$27	yes
1-Step	Weekly 80%	8%	\$41	\$7	\$14	yes
1-Step	On Demand 80%	12%	\$62	\$7	\$25	yes
1-Step	90% split	12%	\$62	\$17	\$15	yes
1-Step	90% On Demand	20%	\$103	\$17	\$36	yes
2-Step Lite	Weekend holding	12%	\$50	\$6	\$20	yes
2-Step Lite	Weekly 80%	8%	\$33	\$8	\$9	yes
2-Step Lite	On Demand 80%	12%	\$50	\$8	\$18	yes
2-Step Lite	90% split	12%	\$50	\$19	\$7	yes
2-Step Lite	90% On Demand	20%	\$83	\$19	\$24	yes
2-Step Pro	Weekend holding	12%	\$53	\$6	\$21	yes
2-Step Pro	Weekly 80%	8%	\$36	\$8	\$11	yes
2-Step Pro	On Demand 80%	12%	\$53	\$8	\$19	yes
2-Step Pro	90% split	12%	\$53	\$20	\$7	yes
2-Step Pro	90% On Demand	20%	\$89	\$20	\$26	yes

After ads = sticker × 0.52 – extra E[X]. Instant 90% On Demand at 32% was already the year-1 floor. Challenge leftover is now after news is in the base, so combined carts are slightly tighter than the restricted-news book.

7. Instant and Pro \$100k — stickers after the drop

Plan	Rec sale	List	Weekend	Weekly	OD 80%	90%	90% OD
Instant	\$439	\$675	\$81	\$54	\$101	\$101	\$216
2-Step Pro	\$289	\$445	\$53	\$36	\$53	\$53	\$89

News sticker is \$0. Do not keep a 12% News toggle on checkout. Do not keep Swing at 20% — that would charge again for news that is already in the fee.

8. Read

\$100k BE move: Instant BE \$279 → \$272 (\$-7); 1-Step BE \$115 → \$137 (\$23); 2-Step Lite BE \$132 → \$155 (\$23); 2-Step Pro BE \$141 → \$162 (\$21). Include news. Do not raise challenge fees. Drop the News add-on and the Swing bundle. Leave weekend and payout add-on percents as locked. First-payout refund is still challenge fee only (Instant is not refundable). News on evals and funded is the same rule — one policy.
