

Add-on % that print and still look like the street

News-included challenge card · VERO35 35% off list + stickers · 20% ads. Charge the lowest % that covers extra $E[X]$ on Instant \$100k. Do not copy Blue Guardian Instant 15% or FundedNext +5% for 90% + anytime.

Charge this

Add-on	Instant	1-Step / Lite / Pro	Instant \$100k sticker	Addon leftover	Combined	Street
News trading	included	included	—	—	\$26	Usually included. Not a SKU.
Weekend Holding	12%	12%	\$81	\$20	\$47	FTMO / Alpha Swing ~10–15%. Live 18%.
Weekly Rewards 70%	8%	8%	\$54	\$6	\$33	Live 6%. BG 7-day 15% without cutting split.
On Demand Rewards 90%	32%	15%	\$216	\$1	\$27	BG 15% · FXIFY / BrightFunded 20%. Instant BE is 32%.
Bi-Weekly 80%	included	included	—	—	\$26	Default. Not a toggle. Min \$100.

Green = paid add-on rec. Instant On Demand at 32% is the year-1 floor, not a street match. Evals On Demand at 15% matches Blue Guardian’s 90% add-on and still prints. Same 20% on Instant \$100k leaves about –\$15 combined — do not ship that if Instant has to print.

1. Formula

List is checkout **basePrice** (sale ÷ 0.65). Sticker = round(list × %). Shopper pays 65% of the sticker after VERO35. Ads take 20% of that cash. Addon leftover = sticker × 0.52 – extra $E[X]$. Prints if leftover ≥ –\$1. Combined leftover = challenge leftover + addon leftover. Challenge leftover already has BE + 10% error + \$1/account + wage share, then sale × 0.80 minus that stack. CAD 10,000/mo wages (~\$7,200) sit in the challenge stack, not on the add-on.

Instant BE is year-1 $E[X]$. Eval BE is first-payout $E[X] / (1 - P(\text{pay}))$. Extra $E[X]$ is a fraction of that BE versus default Bi-Weekly 80%. Weekend Instant 8% · eval 4%. Weekly speed Instant 8% · eval 5% (conservative: treats Weekly 70% like faster 80%). On Demand 90% Instant 41% · eval 12.5% (80→90 is +12.5%; Instant anytime is the rest of the 41%).

2. Challenge BE and leftover (news-included card)

Plan	Size	BE	Opex floor	Sale	List	Challenge leftover

2-Step Pro	\$200,000	\$324	\$501	\$699	\$1,075	\$159

Instant \$100k leftover ~\$26. Lite \$5k is about \$0 after allocated wages — leftover sits on \$25k+. That \$26 does not cover Instant 90% + anytime at 20% of list.

3. Break-even % of list

BE sticker = extra E[X] ÷ 0.52. BE % = BE sticker ÷ list. Weekly uses the conservative speed extra (no credit for 70% vs 80%). Charge above this floor, then stop at the street.

Plan	Size	List	BE \$	WE extra	WE BE %	Wk extra	Wk BE%	OD extra	OD BE%

32%	\$216	\$112	\$22	\$91 yes	\$22	\$91 yes	\$112	\$1 yes	\$27 yes

Green = rec %. Blue = live / current checkout (Weekly 6%, Weekend 15%, On Demand 20%). On Demand 20% Instant \$100k: addon about –\$41, combined about –\$15. On Demand 25% combined is about +\$2 (thin). On Demand 32% addon about \$0, combined about +\$26. Weekly 6% addon about \$0 (thin). Weekly 8% addon about +\$6.

5. Eval \$100k leftover at the rec vs street

Plan	Add-on	BE %	Rec %	Sticker	Extra	Addon left	Combined	Live %	Live left	BG 15% left
1-Step	Weekend	2%	12%	\$70	\$5	\$31	\$154	18%	\$49	\$40
1-Step	Weekly 70%	2%	8%	\$47	\$7	\$18	\$140	6%	\$11	\$38
1-Step	On Demand 90%	6%	15%	\$87	\$17	\$28	\$151	20%	\$44	\$28
2-Step Lite	Weekend	3%	12%	\$57	\$6	\$23	\$66	18%	\$39	\$31
2-Step Lite	Weekly 70%	3%	8%	\$38	\$8	\$12	\$54	6%	\$7	\$29
2-Step Lite	On Demand 90%	8%	15%	\$71	\$19	\$18	\$60	20%	\$30	\$18
2-Step Pro	Weekend	2%	12%	\$64	\$6	\$27	\$95	18%	\$44	\$36
2-Step Pro	Weekly 70%	3%	8%	\$43	\$8	\$14	\$82	6%	\$9	\$34
2-Step Pro	On Demand 90%	7%	15%	\$81	\$20	\$22	\$90	20%	\$35	\$22

Every eval \$100k add-on at the rec prints on its own, and combined is fat. Evals On Demand at Blue Guardian 15% still prints. Live Weekend 18% is extra leftover you do not need.

6. Instant \$100k — rec vs live vs current checkout vs holes

Add-on	Live	Now in checkout	Rec	Sticker rec	Addon left rec	Combined rec	If BG 15%	If FN 5%
Weekend	18%	15%	12%	\$81	\$20 yes	\$47 yes	\$31 yes	–\$4 thin
Weekly 70%	6%	6%	8%	\$54	\$6 yes	\$33 yes	\$31 yes	–\$4 thin
On Demand 90%	20%	20%	32%	\$216	\$1 yes	\$27 yes	–\$59 NO	–\$94 NO

Blue Guardian Instant 15% on 90% + anytime: about –\$64 addon leftover. FundedNext +5%: about –\$99. Those are holes. Weekend at BG-like 15% still prints. Weekly at live 6% is thin on Instant \$100k if you do not credit the 70% split cut.

7. Weekly 70% — why 8%, not 6%

Live charges 6% for Weekly 70%. Faster cadence costs Instant about 8% of year-1 BE (~\$22 on \$100k). At 6% the sticker is \$41, cash after VERO35 and ads is \$21, leftover about –\$1 (thin). At 8% the sticker is \$54, leftover about +\$6. If you credit that 70% pays 12.5% less than default 80%, extra E[X] is negative and even 4% prints. Do not price Instant on that gift — a shopper who withdraws weekly still pulls year-1 cash forward. 8% stays under Blue Guardian’s 15% 7-day add-on, which does not even cut the split.

8. Combined leftover at the rec (every SKU)

Plan	Size	Challenge	WE 12%	Wk 8%	OD rec	WE comb	Wk comb	OD comb

10. What not to do

Do not put Instant 90% + anytime at 15% or 5%. Instant \$100k extra E[X] is about \$112. 15% brings in $101 \times 0.52 = \$53$. Hole about \$64. FundedNext +5% is about –\$99. **Do not** keep Instant On Demand at 20% if Instant must print — combined leftover is about –\$15. **Do not** charge Weekend 18% when 12% already prints and the street often includes holding. **Do not** keep Weekly at a flat \$27 — it overcharges \$5k and undercharges Instant \$100k. **Do not** use one On Demand % for Instant and evals unless you accept Instant \$100k as a loss-leader. If you refuse Instant 32%, the least-bad one-number is **25%** (Instant combined about +\$2, thin).

Checkout today is Weekend 15% / Weekly 6% / On Demand 20% on every plan. Move to Weekend 12% / Weekly 8% / On Demand 15% evals and 32% Instant.
