

On the shopper door Verodus is cheaper on Instant and 1-Step. FundedHive Classic is cheaper than Verodus Pro and close to Lite. On operator leftover, Classic \$100k keeps **\$173** vs Lite **\$145** / Pro **\$168**. FundedHive Instant \$10k @ \$299 keeps **\$261** on first payout (m +87%). Verodus Instant \$10k @ \$69 keeps **\$41** on the year-1 card (m +60%). PFP 2-Step access is a hole from \$100k until the 1–3% funded fee. Verodus has no PFP analog.

Instant \$10k callout

Verodus first-payout E[X] at \$10k is **\$82** vs a **\$69** sale — the sticker does not cover the first check. Year-1 E[X] is **\$28**, leftover **\$41**. That is the right Verodus Instant BE (funded on day 1). FundedHive Instant first check is **\$38** because of the 2% max/trade cap; leftover **\$261** at \$299. Residual on FH is the doubling tower, not L1. Instant Best Day on Verodus is 20% of Positive Days' Profit at payout request. No min days. 1-Step Best Day stays 50%.
