

Add-on leftover: BE, margins, and every legal combination

News is included on every phase (not an add-on). Remaining add-ons: weekend 15%, weekly 80% at 10%, on-demand 80% 15%/18% Instant, 90% 15%/18% Instant, 90% On Demand 25%/35% Instant. VERO35 takes 35% off list + stickers. After ads = 52% of sticker minus extra E[X]. Challenge leftover uses news-on BE.

1. Challenge BE and leftover (no add-ons)

BE is year-1 E[X] on Instant and first-payout E[X] / (1 – P(pay)) on evals. Margin = (rec sale – BE) / rec sale. Leftover is after 10% error, \$1, wage share, and 20% marketing — the opex stack, not BE alone.

Green = leftover ≥ –\$1. Challenge rec prints on every SKU.

2. Single add-on leftover at \$100k

Addon leftover does not include the challenge leftover. Extra E[X] is vs default 80% biweekly. Instant 90% On Demand extra is ~41% of year-1 BE (~\$116).

Instant 90% On Demand at 35% leftover ~\$11. That is the year-1 floor. Do not copy Blue Guardian Instant 15% or FundedNext +5% for 90%+anytime.

3. Instant \$100k — every legal cart

Weekly cannot mix with on-demand or 90%. On-demand+90% bills as 90% On Demand (35%), not 18+18. Combined leftover = challenge leftover (~\$26) + addon leftover.
