

# Margins — 310-account book + add-on leftover

310 accounts/mo on the Instant-heavy mix. Challenge leftover \$8,687/mo (16.0% of \$54,270 sale revenue) after payouts, 10% error, \$1/account, CAD 10k wages, and 20% ads. Lite/Pro \$25k+ sit under Ment / Alpha 6% and Hola / Alpha 10%. Doors unchanged.

## 1. Monthly P&L; at 310

CAD 10,000 wages (~\$7,200) are a fixed monthly cost, spread across 310 weighted accounts. They do not scale down if volume is 150. Instant BE is year-1. Eval BE includes the first-payout refund.

| Line                            | \$ / month |
|---------------------------------|------------|
| Challenge revenue (VERO35 sale) | \$54,270   |
| Ads 20%                         | −\$10,854  |
| Payout BE                       | −\$24,744  |
| 10% error on BE                 | −\$2,474   |
| \$1 per account                 | −\$310     |
| Wages CAD 10,000 × 0.72         | −\$7,200   |
| Leftover after opex             | \$8,687    |

| Plan        | N   | Revenue  | Leftover | of revenue |
|-------------|-----|----------|----------|------------|
| Instant     | 98  | \$16,202 | \$512    | 3.2%       |
| 1-Step      | 67  | \$12,601 | \$3,172  | 25.2%      |
| 2-Step Lite | 82  | \$12,718 | \$2,138  | 16.8%      |
| 2-Step Pro  | 63  | \$12,749 | \$2,866  | 22.5%      |
| Book        | 310 | \$54,270 | \$8,687  | 16.0%      |

1-Step carries most leftover. Instant is thinner because year-1 BE is the whole fee job. Lite \$5k is about \$0 after allocated wages — keep the Hola/TFT street door.

## 1b. Same mix at 150 / 310 / 600

| Accounts / mo | Revenue   | Wages   | Leftover | of revenue |

| 600           | \$105,039 | \$7,200 | \$23,550 | 22.4%      |

2. Challenge leftover by SKU

Leftover = sale × 0.80 – (BE + 10% error + \$1 + wage share). Instant BE is year-1 E[X]. Eval BE is first-payout E[X] / (1 – P(pay)). CAD 10,000/mo wages (~\$7,200) sit in this stack, not on the add-on.
