

Attractive Verodus sale card vs competitor street

Priced for the shopper, not for difficulty. Rec is at or under the same-family median (what customers see on Instant / 1-step / 2-step pages). 16 August 2026.

Rule: never recommend a fee above the family median, and never raise a live fee that is already under that median. 1-Step / Lite / Pro stay at today’s VERO35 — they are already the cheap names on those shelves. Instant is cut to the Instant median (\$175 at \$25k) so we stop sitting above Goat / BG / Instant Funding. List = sale ÷ 0.65. Instant \$200k pulled.

1. Recommended Verodus sale (VERO35)

Plan	\$5k	\$10k	\$25k	\$50k	\$100k	\$200k	Live \$100k	Rec m \$100k	Why this number
Instant	\$63	\$99	\$175	\$279	\$499	—	\$676	-75%	Family median (Goat-class). Under IF / Hola.
1-Step	\$36	\$60	\$120	\$193	\$335	\$654	\$335	+59%	Keep live — cheapest 1-step on the shelf.
2-Step Lite	\$18	\$33	\$66	\$133	\$241	\$477	\$241	+33%	Keep live — cheapest 2-step on the shelf.
2-Step Pro	\$20	\$36	\$85	\$163	\$296	\$577	\$296	+43%	Keep live — #2 after Maven, under Goat / FTMO.

Green = recommended sale. Instant is a cut vs live. Evals are unchanged. Instant \$100k rec \$499 is –26% vs live \$676 and –6% vs Instant Funding \$639. Margin at that size is negative — attractive Instant \$25k+ does not print.

2. Instant — every instant street fee

Shoppers compare every Instant on the page — Alpha \$40, BG \$54, Goat \$63, Hola \$79 at \$5k; Alpha \$274, BG \$467, Goat \$559, Instant Funding \$639, Hola \$839 at \$100k. Live VERO35 sits above the family median at every size. Rec cuts to that median (Goat-class, shop-round): \$63 / \$99 / \$175 / \$279 / \$499. Under Goat and Instant Funding; above only the loss-leader Alpha / FXIFY Lite holes. \$5k / \$10k still print. \$25k+ does not — that is the cost of being cheap enough to click. No \$200k Instant.

Firm	Plan	\$5k	\$10k	\$25k	\$50k	\$100k	\$200k
Alpha Capital	Instant	\$40	\$58	\$118	\$154	\$274	\$538

3. 1-Step — every 1-step street fee

Live is already the cheapest 1-step on the shelf at every size except \$5k (Fintokei \$35). \$335 vs FTMO \$579 / FN \$570 / Hola \$463 at \$100k. Keep live. Raising toward Hola would make the card less attractive, not more.

6. List (VERO35) and live vs recommended

Shopper pays sale. List = sale ÷ 0.65. Margin uses this book’s E[cost]. Instant \$25k+ at the attractive fee is below cost — flagged, not raised.

Plan	Size	Live sale	Live m	Rec sale	Rec list	Rec m	Δ sale	Family median	Vs median
Instant	\$5,000	\$72	+39%	\$63	\$97	+31%	\$-9	\$63	+0%

7. Rec vs family low / median / average / high

% is (rec – stat) / stat. Negative = cheaper than that mark. Family = every Instant, every 1-step, or every 2-step — the page a customer opens. 5ers Hyper Growth (\$260 / \$450) pulls 1-step \$5k / \$10k average up; ignore it.

Plan	Size	n	Rec	Low	±%	Median	±%	Average	±%	High	±%	Attractive?
Instant	\$5,000	9	\$63	\$39	+62%	\$63	+0%	\$66	-5%	\$99	-36%	yes — at/under median
